Help for explorerTV's remote control

Short explanation: with the remote control you select the channel number of tv you wish to watch.
You need to insert the channel number in the white box with label "insert channel number"

Then you need to click on "Play" in or press "Enter" on your keyboard; streaming will start automatically.

For stopping the streaming click on the button "Stop".

For watch the explorerTV's list channel click on the button "Channel list".
